Positioning

A highly motivated web developer that is passionate about integrating creative solutions to web and mobile applications across diverse industries. I am available to take on a full time or part time job, and seek to work remotely with no travel or relocation. I would be a great fit to your team if you need a web developer that can quickly learn your tech stack and start implementing features to production.

Timeline

Junior Front End Developer at Brooksource	05/2022-10/2022
